

**PROCEEDINGS
of the
Research Experiences for Undergraduates
Program in Mathematics**

**Oregon State University
Summer 2001**

Dennis J. Garity, Director

This volume contains the Proceedings of the Research Experiences for Undergraduates Program held at the Mathematics Department of Oregon State University during the summer of 2001. This program was funded by the National Science Foundation and by Oregon State University. The Provost's Office, the Research Office, the College of Engineering, the College of Science, the Mathematics Department and the Computer Science Department provided the funding from Oregon State University. Dennis J. Garity of the Mathematics Department directed the program. Donald Solmon of the Mathematics Department and Paul Cull of the Computer Science Department were the faculty advisors on the research projects undertaken by the student participants. There were nine undergraduate participants in the program. The papers summarizing the research projects are listed below. The participants were:

Shawn Alspaugh	Taylor University	Danica Dralus.....	Lawrence University
William Johnson	Union College	Jennifer Kimble.....	Mississippi U. for Women
Nathan Knight.....	Oregon State University	Kathleen Meloney	Union College
Daniel Rubinstein	Princeton University	Emily Putnam.....	San Fransisco State University
Braden Soper	U.C.L.A.		

Table of Contents

Shawn Alspaugh, Nathan Knight, and Kathleen Meloney	(Advisor: Paul Cull)	
<i>Perfect One Error Correcting Codes on Iterated Complete Graphs</i>		1
Danica Dralus	(Advisor: Donald Solmon)	
<i>Effects of a Scaling Factor on the Error Vector in Dykstra's Algorithm</i>		58
William Johnson	(Advisor: Donald Solmon)	
<i>Determining a Triangle from Two X-ray Sources</i>		71
Jennifer Kimble	(Advisor: Donald Solmon)	
<i>Functions that are Directed X-rays of Planar Convex Bodies</i>		83
Emily Putnam	(Advisor: Dennis Garity)	
<i>Distinctness of Self-Intersecting Curves on the Punctured n-Holed Torus</i>		99
Daniel Rubinstein and Braden Soper	(Advisor: Dennis Garity)	
<i>Connected sums and Decompositions of Plane Curves</i>		127
