

PROCEEDINGS
of the
Research Experiences for Undergraduates
Program in Mathematics

Oregon State University
Summer 2003

Dennis J. Garity, Director

This volume contains the Proceedings of the Research Experiences for Undergraduates Program held at the Mathematics Department of Oregon State University during the summer of 2004. This program was funded by the National Science Foundation and by Oregon State University. The Provost's Office, the Research Office, the College of Engineering, the College of Science, the Mathematics Department and the Computer Science Department provided the funding from Oregon State University. Dennis J. Garity of the Mathematics Department directed the program and was a faculty advisor on research projects. Juha Pohjanpelto and Donald Solmon of the Mathematics Department and Paul Cull of the Computer Science Department were also faculty advisors on the research projects undertaken by the student participants. There were ten undergraduate participants in the program. The papers summarizing the research projects are listed below. The participants were:

Mary Avery.....	St. Edward's University	Andrew T. Barker	Wheaton College
Ian Biringer.....	Oberlin College	Jason Dagit.....	Oregon State University
Meredith Kadlac	Humboldt State University	Stephanie Kleven	Central College
Brian Klos.....	Gonzaga University	Adam Murakami	Oregon State University
Jonas Meyer.....	Loras College	Huyen Pham.....	Oregon State University

Table of Contents

Mara Avery, Brian Klos and Jonas Meyer <i>Reconstructing Convex Polyhedrons in R^3</i>	(Advisor: Donald Solmon)	1
Andrew Barker and Ian Biringer <i>On Defect of Plane Curves</i>	(Advisor: Juha Pohjanpelto)	25
Jason Dagit and Huyen Pham <i>Almost Tree-Like Plane Curves</i>	(Advisor: Juha Pohjanpelto)	57
Meredith Kadlac <i>Explorations of the Minesweeper Consistency Problem</i>	(Advisor: Paul Cull)	78
Stephanie Kleven <i>Perfect Codes on Odd Dimension Serpinski Graphs</i>	(Advisor: Paul Cull)	127
Adam Murakami <i>Computing Fibonacci Numbers Fast Using the Chinese Remainder Theorem</i>	(Advisor: Paul Cull)	146
